

Welding / Grinding Downdraft Tables

Series A

WELDING AND GRINDING TABLES AT MOBILE OR STATIONARY EXTRACTION SYSTEMS.

The ergonomically-adapted sturdy sheet steel construction and rugged material surface always ensures a comfortable, safe working environment. The A-series is height-adjustable, extremely rugged and safe. The welding/grinding table can be connected to the fan for extract-only operation (without filtration). The dusty air is filtered in connection with a stationary or mobile extraction system, and can be fed back into the work room again.

Side panel swung back for larger work pieces

Integrated coarse dirt collecting drawer

Application Range

- » For connection to ventilator or extraction system
- » Working table for welding, grinding, deburring of all types of metals
- » Also suitable for other applications (e.g. plastics processing, gluing processes)

Special Versions / Accessories

- » Side panels
- » Rear wall extraction
- » Lid for optimal airflow
- » Lighting installed in the cover
- » Mobile unit on casters
- » Version with steel T-grate, fiberglass or wood slat grate
- » Customer specific dimensions available
- » Rotary disk for placement on grate
- » Reinforcement plate for fastening a vice

ESTA PLUS

Special Features

- » Galvanized grid
- » Height adjustable (± 100 mm)
- » Drawer for coarse dirt
- » Variable connection piece (right or left)

Your Benefits

- » Extraction directly at the workstation
- » Compact solution
- » Plenty of knee and leg room
- » A stable steel plate housing
- » For variable use
- » Easy disposal of coarse dirt
