

# GUIDE TO SERVICES

**The most  
comprehensive  
balancing service  
in the UK**

**Precision. Reliability. Performance.**

**We provide the UK's most complete balancing service, ensuring that your operations run smoothly, efficiently, and with the highest level of accuracy.**

Whether you need state-of-the-art balancing machines, expert calibration, sub-contract balancing, or ongoing support, we've got you covered.

- ✓ Market-leading balancing machines
- ✓ Precision calibration and testing
- ✓ Expert support from our UK-based engineers
- ✓ Flexible sub-contract balancing solutions
- ✓ Swift parts availability
- ✓ Machine upgrades

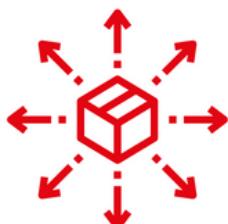

## Product Assembly & Integration

- Expert setup by our own trained engineers.
- Full commissioning for maximum accuracy and reliability.

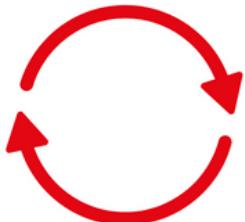

## Product Calibration & Testing

- Ensuring precision and compliance with industry standards.
- Reducing risk, downtime, and costly rework.

## Balancing Machine Sales

- Horizontal – ideal for rotors, crankshafts, and rotating components.
- Vertical – for impellers and disc-shaped components.
- Semi-Automatic & Automatic – for high-volume, high-precision production.

## Machine Upgrades & Refurbs

- Retrofit new technologies for enhanced efficiency.
- Improve measurement accuracy and automation.

## Sub-Contact balancing

- Flexible, UK-based service to cover capacity constraints.
- Rapid turnaround with expert precision.

## Local Support & Services

- Fast, responsive service from our own UK-based engineers.
- Scheduled maintenance, emergency repairs, and training.
