

Streamlined Maintenance for Modern Industries

INTRODUCTION

What is CIMCO MNT?

Track machine errors, manage inventory, and reduce downtime with a centralized maintenance system built for modern manufacturing.

CIMCO MNT is a user-friendly yet powerful Maintenance Management System designed to streamline maintenance operations. It helps you efficiently organize, track, and execute tasks across your equipment and facilities, providing clarity and control over error reporting, maintenance scheduling, and personnel management.

BENEFITS

Why use MNT?

All errors in one place

Easily track, and manage all faults and errors in a centralized system for quick resolution and improved oversight.

Limit downtime

Stay on top of maintenance schedules with detailed maintenance and task tracking to limit downtime.

Prioritize equipment

Prioritize maintenance tasks based on equipment importance, ensuring critical assets stay operational.

Maintenance checklists

Create and use structured checklists to ensure every maintenance task is completed accurately and consistently.

Keep track of all inventory

Easily manage all inventory items with location tracking, usage history, and assigned maintenance responsibility.

Register resource expenses

Track labor hours and material costs for each task to gain insights and control over maintenance expenses.

FEATURES

Some of the many features included

Dashboard

View reported errors, ongoing maintenance, and scheduled tasks at a glance, organized by priority levels for quick response and planning.

Fault and Error Reporting

Quickly report faults by selecting a machine, detailing the issue, choosing technicians, and setting priorities. Errors are clearly listed for easy tracking and resolution.

Scheduled Maintenance

Set recurring maintenance intervals and build custom checklists to guide technicians through consistent, reliable inspections and servicing tasks.

Seamless Service Reporting

Reported errors can be easily turned into Service Reports, enabling technicians to access details, update statuses, document activities, and store closed reports for future reference and analysis.

Time Reporting with Export

Track maintenance time with detailed time reports and filter by technician, machine, or description for in-depth analysis. Export reports in CSV or PDF format for convenient data sharing and documentation.

Smart Machine Management

Manage machines through centralized profiles, linked documents, and QR codes for quick error reporting. Color-coded priorities highlight maintenance needs and help focus resources.

Inventory Management

Track and manage inventory items with ease, including their locations, usage history, assigned users, maintenance schedules, maintenance types and intervals, and the personnel responsible for upkeep.

Personnel Management

Manage your maintenance personnel with detailed profiles, including skills, status, and machine expertise. Assign the right technician to each task based on their skill set and familiarity.

Customization and Multi-language

Tailor CIMCO MNT to your needs with adjustable settings, light/dark mode options, and multi-language support. Accessible on desktop, tablet, and mobile devices.

- ✓ **Real-Time Monitoring of Maintenance**
Displays active maintenance tasks currently in progress.
- ✓ **Daily Notifications and Updates at a Glance**
Highlights important notifications and updates relevant to the day.
- ✓ **QR Code Error Reporting**
Generate QR codes for fast error reporting and instant machine access.
- ✓ **Integration with CIMCO DNC-Max**
Manage machines already configured in CIMCO DNC-Max.

CIMCO is an industry leading developer of software solutions for Computer Integrated Manufacturing and Industry 4.0. Our software suite includes advanced CNC editors, simulation software, DNC communications software, Manufacturing Data Collection for real-time monitoring and analysis of shop floor productivity, and Manufacturing Data Management for managing, organizing and securely storing production related data.

Since 1991, CIMCO has helped companies worldwide improve their competitive edge by providing reliable software and outstanding on-site assistance. Our network of CAD/CAM/CNC resellers and consultants have sold more than 100,000 licenses worldwide and we hold great pride in continuously supporting and meeting our customers' demands by developing intelligent and competitive solutions.

THE FULL SUITE OF CIMCO SOFTWARE

CIMCO Edit

Full-featured NC editing, simulation and machine communication tool. Powerful add-ons available.

CIMCO DNC-Max

The leading solution for NC program transfers to and from CNC machines. Compatible with machines and files.

CIMCO MDC-Max

Real-time manufacturing data collection. Optimize use of resources, and streamline processes.

CIMCO NC-Base

Organize, manage, and protect part programs and related production documents efficiently.

CIMCO MDM

Complete solution for manufacturing document management. Integrates with CAD/CAM systems from leading vendors.

CIMCO Scheduler

Production scheduling and order tracking solution. Improve delivery times and use of machines and resources.

CIMCO Machine Simulation

Prove-out your NC program on a 3D CNC machine model. Automatic checks for collisions, out of limit moves and more.

CIMCO CNC-Calc

A basic CAD/CAM. Draw 2D geometrical contours and lay out toolpaths for milling and turning machines.

CIMCO MNT

Track machine errors, manage inventory, and reduce downtime with a centralized maintenance system.

CIMCO Teachware

E-learning solution that introduces students to working with digital machine tools.
