

Waste Mission

Sustainable Recycling Solutions

One team, together, with one waste mission

Welcome...

We are Waste Mission.

We simplify waste management for businesses and prioritise sustainability.

We collaborate with you to create tailored solutions, helping you reach your environmental goals.

Our knowledgeable team is dedicated to turning waste into opportunities that help grow the circular economy.

Choose us as your dependable partner in creating a greener future.

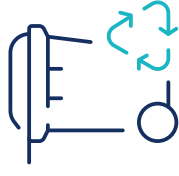

Empowering you to rethink waste

What drives us at Waste Mission is our unwavering commitment to doing what's right - for our clients, our staff, and the planet. We're all about educating, encouraging, and making waste solutions simple for UK businesses to recycle their waste, no matter the size or complexity of the task. We aim to uncomplicate waste management by offering a bespoke, tailored service, with a single supplier solution.

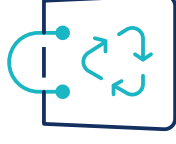

You can count on us for dependability, reliability and quick support, with a passion for finding innovative and sustainable solutions. We take pride in forging trust and fostering lasting relationships. We see ourselves as being part of your team, being instrumental in helping you accomplish your waste management and environmental targets.

Benefits of total Waste Management

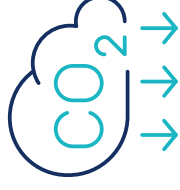

Waste prevention & segregation

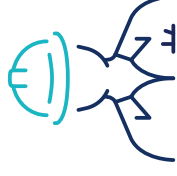

Increase recycling

Revenue from rebates

Reduce carbon footprint

Improve health & safety

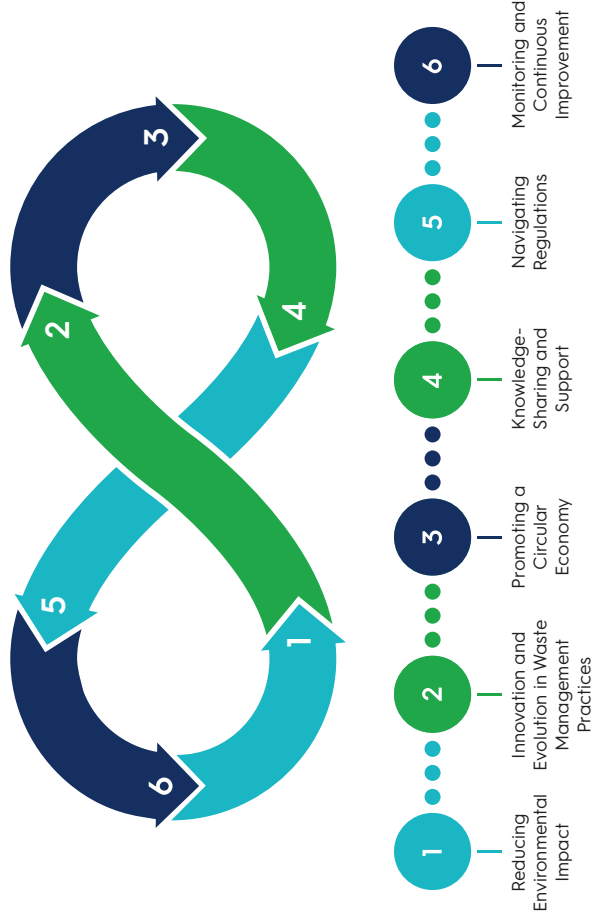

Reporting & compliance

Creating a future that's a few shades greener

At Waste Mission, our drive for a greener future fuels our vision to empower businesses to adopt sustainable recycling solutions. We demystify the complex landscape of waste management and champion a circular economy – a mindset where waste is not an obstacle, but an opportunity.

With Waste Mission as your confident companion, managing waste becomes less daunting and more sustainable. Together, let's steer a course towards a sustainable future.

As we undertake this mission, we're guided by six key objectives:

- 1 Reducing Environmental Impact**
We guide businesses to reduce waste and enhance profitability for a healthier planet.
- 2 Innovation and Evolution in Waste Management Practices**
We're advancing waste management using innovative, environment-friendly techniques.
- 3 Promoting a Circular Economy**
We view waste as a resource, helping businesses turn waste into solutions, reducing reliance on new materials.
- 4 Knowledge-Sharing and Support**
We educate and support clients on their journey to sustainable waste management.
- 5 Navigating Regulations**
We navigate complex regulations ensuring businesses meet environmental and legal requirements.
- 6 Monitoring and Continuous Improvement**
Learning from feedback and regulatory audits, we enhance our waste management approach towards a greener future.

We're in this together

Data & reporting

Simplify your waste management with Waste Mission's consolidated solution. Gain insights into your waste production, recycling levels, and spending, while advancing your carbon reporting and waste target tracking.

Save time and simplify data sourcing, with everything housed in a single place. Our intuitive waste portal, exclusively for contracted customers in contract with us, is built with an easy-to-navigate design for accessing data and documents. It's waste management made simple.

Expertise

At Waste Mission, we're experts in compliance, waste and by-product reuse, as well as the latest waste management technology. Our specialist knowledge helps close the gaps in your operations by managing waste from generation to disposal, all while ensuring adherence to regulations.

Our friendly and approachable team simplify waste management for businesses of all sizes. Partnering with us not only benefits your waste management efforts but can also provide financial opportunities and support your broader environmental goals.

Benefits for your business

At Waste Mission, you'll have a direct single point of contact with one of our experienced project managers. We'll simplify your sustainability journey, leveraging our expertise to design a waste management strategy for you.

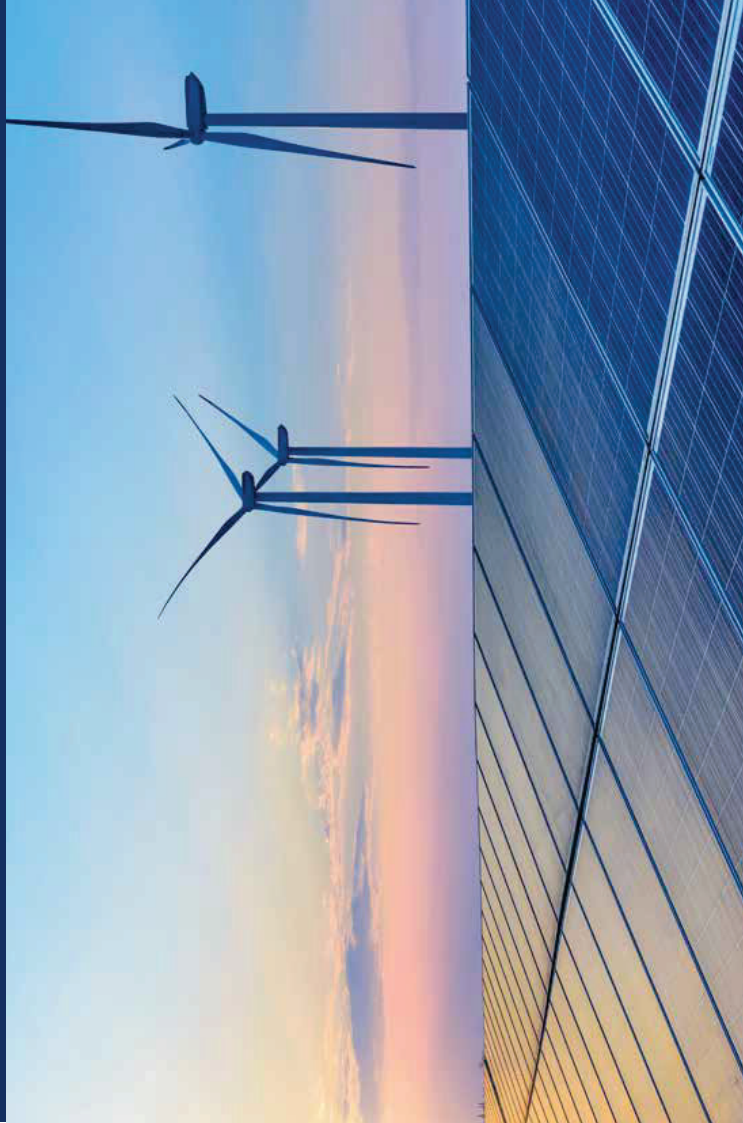

Through careful waste stream analysis, we identify opportunities for recycling as well as innovative ways to reduce the amount of waste sent to landfill. Not only do these solutions significantly reduce your general waste, but they also reduce costs through efficient collection processes.

Our sustainability journey

We deliver bespoke recycling services, designed around the unique needs of each client. By closely collaborating with our customers, we can convert their waste challenges into environmental victories, and financial gains. It's an innovative approach that not only accomplishes sustainability goals, but also reshapes the way businesses view waste.

Our core commitments – sustainability, collaboration, and responsibility – define us.

Waste Mission Services

When you choose Waste Mission, you're stepping into a world of advanced, sustainable solutions that aim to simplify your waste management issues and promote greener operations.

- Total Waste Management
- Commodity Waste
- Hazardous & Industrial Services
- Secure Destruction

- Broker Management

Contract management

Our Contract Management services aim to streamline waste disposal processes, ensure regulatory compliance, and optimise waste management costs for businesses of all sizes.

Our team of waste management experts collaborates closely with each customer to understand their unique requirements and tailor solutions accordingly.

Personalised service

We are dedicated to providing personalised services that cater to your business's specific needs, whether it's a small enterprise or a large industrial facility. Our commitment to efficiency and sustainability remains unwavering.

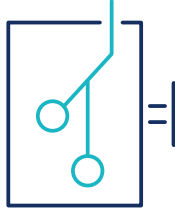

- Comprehensive Waste Audit
- Dedicated Account Manager
- Quarterly site inspections
- Quarterly performance assessments to allow us to identify areas for improvement and increase recycling rates
- Waste Collection
- Transportation
- Waste Disposal
- All compliance paperwork
- Containment
- Processing equipment i.e. balers and compactors
- ...and so much more

Customer portal

To streamline the Contract Management process, our dedicated customer portal (for contracted customers) serves as a centralised hub for accessing all waste management-related, including contracts, invoices, and compliance documentation.

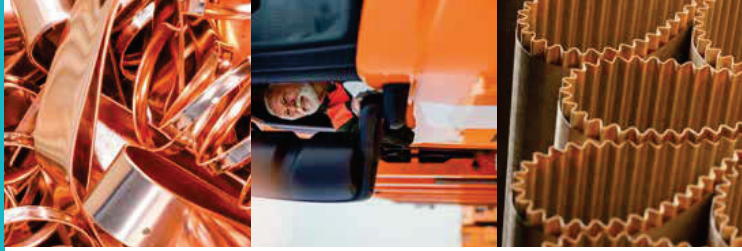

You can conveniently monitor your waste disposal, track performance metrics, and access historical data through this user-friendly interface.

Streamlined and user friendly

In addition, our portal will foster open communication, allowing you to submit service requests, raise concerns, and receive prompt assistance from our support team. We believe that clear communication and responsive customer service are crucial in building long-lasting relationships.

By focusing on waste management, we free up your time to concentrate on what truly matters: growing your business and making a positive impact on the environment.
